

PROJECT DEMONSTRATION PHASE

Creating a Salesforce Developer Org:

The screenshot shows the Salesforce Developer Edition sign-up page. The left side has a blue background with the heading "Build for the Agentic Enterprise. Sign up for your Developer Edition." and a list of features: "Build AI agents with Agentforce, grounded in your data with Data 360", "Connect Claude Code, Cursor, or Codex to your org with hosted MCP", "Build in the browser with the Agentforce Vibes IDE - no setup required", "Drag-and-drop when you want it, Apex when you need it", and "60+ MCP tools and 30+ coding skills, ready out of the box". The right side is a white box titled "Sign up for your Developer Edition" with a form for "First name", "Last name", "Job title", "Company", "Country/region" (set to India), and "Work email". Below the form is a checkbox for the "Main Services Agreement - Developer Services, Salesforce Program Agreement, and API Terms of Service" and a paragraph of terms and conditions.

Build for the Agentic Enterprise. Sign up for your Developer Edition.

The entire Salesforce platform - exposed as APIs, MCP tools, and CLI commands. Build apps, ship agents, and let coding agents do the heavy lifting with Salesforce Headless 360.

- ✓ Build AI agents with Agentforce, grounded in your data with Data 360
- ✓ Connect Claude Code, Cursor, or Codex to your org with hosted MCP
- ✓ Build in the browser with the Agentforce Vibes IDE - no setup required
- ✓ Drag-and-drop when you want it, Apex when you need it
- ✓ 60+ MCP tools and 30+ coding skills, ready out of the box

Create a custom object for Farm:

The screenshot shows the Salesforce Object Manager interface in Developer Edition. The browser address bar displays the URL: `orgfarm-4a8212cb87-dev-ed.develop.my.salesforce-setup.com/lightning/setup/ObjectManager/home`. The page header includes a search bar and navigation tabs for Setup, Home, and Object Manager. The main content area shows a list of standard objects with columns for Label, API Name, Type, Description, and Last Modified. A dropdown menu is open, showing options to create a custom object or from a spreadsheet.

LABEL	API NAME	TYPE	DESCRIPTION	LAST MODIFIED
Account	Account	Standard Object		
Activity	Activity	Standard Object		
Activity History	DevopsActivityLog	Standard Object		
Address	Address	Standard Object		
Agent Work	AgentWork	Standard Object		
Alternative Payment Method	AlternativePaymentMethod	Standard Object		
API Anomaly Event Store	ApiAnomalyEventStore	Standard Object		
Appointment Category	AppointmentCategory	Standard Object		
Appointment Invitation	AppointmentInvitation	Standard Object		

Creation of Farm tab:

The screenshot shows the Salesforce Custom Tabs interface in Developer Edition. The browser address bar displays the URL: `orgfarm-4a8212cb87-dev-ed.develop.my.salesforce-setup.com/lightning/setup/CustomTabs/home`. The page header includes a search bar and navigation tabs for Setup, Home, and Object Manager. The main content area shows the 'Custom Tabs' section with a description of how to create new custom tabs. A table lists existing custom object tabs, including 'Farm' with a 'Leaf' tab style.

Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality. Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

Action	Label	Tab Style	Description
Edit / Del	Buyers	Chess piece	
Edit / Del	Crops	Form	
Edit / Del	Farmers	Insect	
Edit / Del	Farms	Leaf	

Create the Farm Management System app:

The screenshot shows the Salesforce Lightning Experience App Manager. The browser address bar displays the URL: `orgfarm-4a8212cb87-dev-ed.develop.my.salesforce-setup.com/lightning/setup/NavigationMenus/home`. The interface includes a top navigation bar with "Developer Edition" and a search bar. The left sidebar shows a navigation menu with "Setup", "Home", and "Object Manager". The main content area is titled "Lightning Experience App Manager" and displays a table of 33 items, sorted by App Name. The table columns are: App Name, Developer Name, Description, Last Modified, App Type, and Visibility. The items listed are:

	App Name	Developer Name	Description	Last Modified	App Type	Visibility
1	Agentforce Grid	AIWorkbench	Access Agentforce Grid	9/18/2026, 7:12 PM	Lightning	✓
2	Agentforce Studio	AgentforceStudio	Agentforce Studio	9/18/2026, 7:12 PM	Lightning	✓
3	All Tabs	AllTabSet		9/18/2026, 7:08 PM	Classic	✓
4	Analytics Studio	Insights	Build CRM Analytics dashboards and apps	9/18/2026, 7:08 PM	Classic	✓
5	App Launcher	AppLauncher	App Launcher tabs	9/18/2026, 7:08 PM	Classic	✓
6	Approvals	Approvals	Manage approvals and approval flows	9/18/2026, 7:08 PM	Lightning	✓
7	Automation	FlowsApp	Automate business processes and repetitive tasks.	9/18/2026, 7:11 PM	Lightning	✓
8	Bolt Solutions	LightningBolt	Discover and manage business solutions designed for your industry.	9/18/2026, 7:08 PM	Lightning	✓
9	Community	Community	Salesforce CRM Communities	9/18/2026, 7:08 PM	Classic	✓

The screenshot shows the Salesforce Lightning App Builder interface. The browser address bar displays the URL: `orgfarm-4a8212cb87-dev-ed.develop.lightning.force.com/visualEditor/appBuilder.app?id=02ufj0000LnX1xAAF&retUrl=https%3A%2F%2F0rgfarm-4a8212cb87-dev-ed.deve...`. The interface includes a top navigation bar with "Developer Edition" and a search bar. The left sidebar shows a navigation menu with "App Settings", "App Options", "Utility Items (Desktop Only)", "Navigation Items", and "User Profiles". The main content area is titled "Navigation Items" and displays a list of available items and a list of selected items. The available items are:

- AI Prediction Scores
- Accounts
- Action Hub
- Activation Targets
- Activations

The selected items are:

- Farmers
- Farms
- Crops
- Buyers
- Dashboards
- Reports

Creation of fields for the Farm objects:

The screenshot shows the Salesforce Setup interface in Developer Edition. The breadcrumb trail is **SETUP > OBJECT MANAGER > Farm**. The left sidebar contains a navigation menu with options: Details, Fields & Relationships (selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, and Related Lookup Filters. The main content area is titled **Fields & Relationships** and shows 16 items, sorted by Field Label. A search bar labeled 'Quick Find' is present. Action buttons include 'New', 'Deleted Fields', 'Field Dependencies', and 'Set History Tracking'. The table below lists the fields:

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED
Actual Yield	Actual_Yield__c	Currency(18, 0)		
Created By	CreatedById	Lookup(User)		
Crop Name	Crop_Name__c	Text(255)		
Expected Yield per Acre	Expected_Yield_per_Acre__c	Formula (Currency)		
Farm	Farm__c	Lookup(Farm)		✓
Farm Name	Name	Text(80)		✓

Create a custom profile:

The screenshot shows the Salesforce Setup interface in Developer Edition. The breadcrumb trail is **SETUP > Profiles**. The left sidebar contains a navigation menu with options: Users and Profiles (selected). The main content area is titled **Profiles** and shows a list of profiles. A search bar labeled 'Quick Find' is present. Action buttons include 'New Profile', 'Edit', 'Delete', and 'Create New View'. The table below lists the profiles:

Action	Profile Name	User License	Custom
☐ Edit Del ...	Sales Department	Salesforce	✓
☐ Edit Del ...	Salesforce API Only System Integrations	Salesforce Integration	✓
☐ Edit Clone	Silver Partner User	Silver Partner	
☐ Edit Clone	Solution Manager	Salesforce	
☐ Edit Clone	Standard Platform User	Salesforce Platform	
☐ Edit Clone	Standard User	Salesforce	
☐ Edit Clone	System Administrator	Salesforce

Set Up Roles

Don't show this page again

Create a user:

The screenshot displays the Salesforce Developer Edition 'Manage Users' interface. The browser's address bar indicates the URL: `orgfarm-4a8212cb87-dev-ed.develop.my.salesforce-setup.com/lightning/setup/ManageUsers/home`. The page layout includes a top navigation bar with 'Setup', 'Home', and 'Object Manager' tabs. A left sidebar provides navigation options, with 'Users' currently selected. The main content area, titled 'All Users', offers instructions on user management and a link to 'Let's Go' for more licenses. Below the instructions is a table listing existing users, with columns for Action, Full Name, Alias, Username, Role, Active status, and Profile. The table contains seven entries, including 'Chatter Expert', 'Department Sales', 'EPIC_OroFarm', 'Manager_Farm', 'B_Gajalakshmi', 'User_Integration', and 'User_Security'. At the bottom of the page, a search bar and a system status bar (showing 32°C and Clear weather) are visible.

Create a sharing rule

The screenshot shows the Salesforce Setup interface in Developer Edition. The left sidebar contains a search bar with "sharing settings" and a list of navigation items: Security, Sharing Settings (highlighted), and a message "Didn't find what you're looking for? Try using Global Search." The main content area is titled "Sharing Settings" and includes a note: "Use sharing rules to create automatic exceptions to your organization-wide sharing settings for specific data or users. Note: 'Roles and subordinates' includes all users in a role, and the roles below that role. You can use sharing rules only to grant wider access to data, not to restrict access." The form is divided into three steps: Step 1: Rule Name (Label: Crop, Rule Name: Crop, Description:), Step 2: Select your rule type (Rule Type: Based on record owner, Based on criteria), and Step 3: Select which records to be shared (Criteria table with columns Field, Operator, Value, and AND/OR). The criteria table has five rows, all with "Crop Name" as the field, "equals" as the operator, and "true" as the value, connected by "AND" operators. The bottom of the screen shows a Windows taskbar with a search bar and various application icons.

Sharing Settings

Use sharing rules to create automatic exceptions to your organization-wide sharing settings for specific data or users. Note: "Roles and subordinates" includes all users in a role, and the roles below that role. You can use sharing rules only to grant wider access to data, not to restrict access.

Step 1: Rule Name Required Information

Label: Crop

Rule Name: Crop

Description:

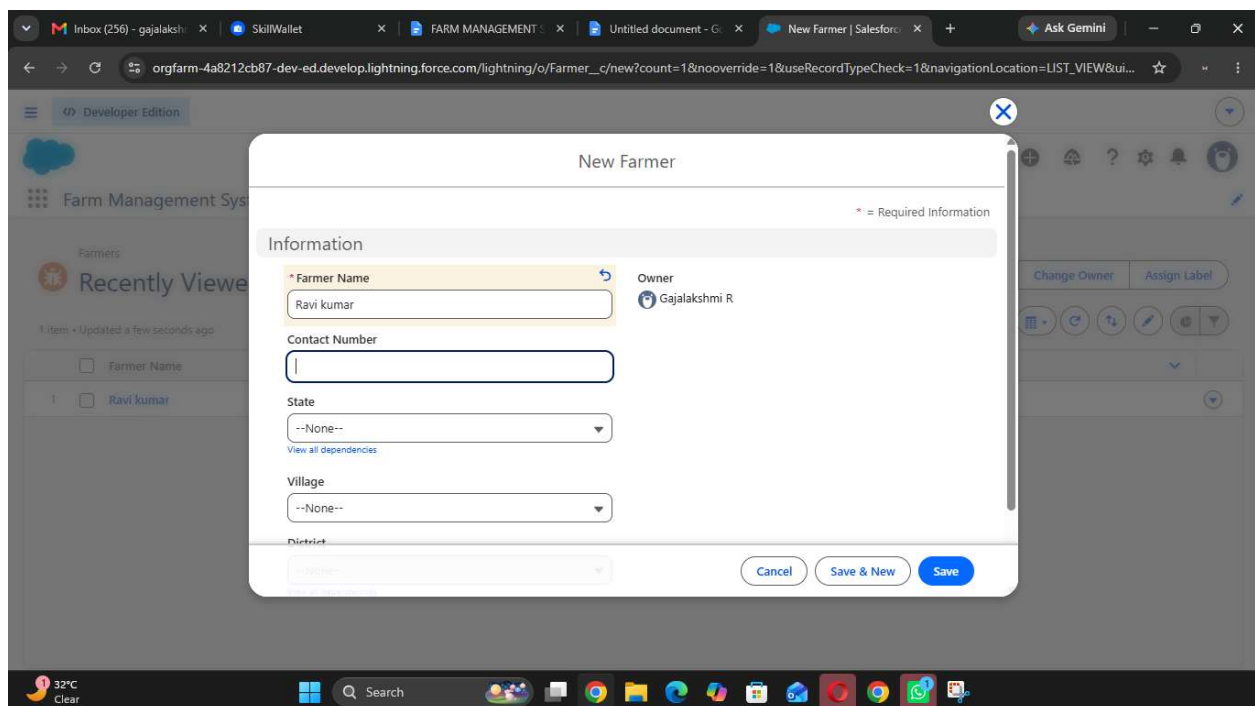

Step 2: Select your rule type

Rule Type: ☐ Based on record owner ☒ Based on criteria

Step 3: Select which records to be shared

Criteria	Field	Operator	Value	
	Crop Name	equals	true	AND
	--None--	--None--		AND
	--None--	--None--		AND
	--None--	--None--		AND
	--None--	--None--		AND

Create a Record

The screenshot shows the Salesforce "New Farmer" record creation form. The form is titled "New Farmer" and includes a "Required Information" icon. The "Information" section contains the following fields: Farmer Name (Ravi kumar), Contact Number (empty), State (dropdown menu with "--None--" selected), Village (dropdown menu with "--None--" selected), and District (dropdown menu with "--None--" selected). The "Owner" field is set to "Gajalakshmi R". The form has "Cancel", "Save & New", and "Save" buttons. The background shows the "Farm Management System" interface with a "Recently Viewed" list containing "Farmer Name" and "Ravi kumar". The bottom of the screen shows a Windows taskbar with a search bar and various application icons.

New Farmer Required Information

Information

* Farmer Name: Ravi kumar
